COLLECTORS.

"The pursuit and study of the Fine Arts in their various branches, have been a source of constant enjoyment to me in the intervals of business, and often of great solace and relief at trying periods, and this alone would be a pleasurable indemnification for my investments, should they fail to be commercially reproductive. It is said that Collectors usually have long lives, and I cannot help feeling that the cheerful exercise of the mind and body which belongs to the pursuit, warrants the assertion; and I hope in due time to say, *probatum est*."

INTRODUCTION.

As it is probable that of the hundred thousand people to whom this number of the Journal will be sent, there may be some to whom Philately and Numismatics are unheard of sciences, therefore a few words concerning them, pointing out the advantages of each, may not be out of place.

Numismatics, or coin collecting, dates back to the earliest records of authentic history, and it is more than probable that men of science and refinement commenced collections as soon as varieties of coins existed. Coins were first issued about one thousand years before the Christian era. A small collection of coins gives us authentic portraits of the heroes of antiquity, correct representations of public buildings, and a trustworthy account of events which occurred thousands of years ago, and it is very probable that the generally received pictures of our Saviour were taken from portraits on the Byzantine coins. It is generally supposed that these old coins are very expensive, but this is not the case, as we always have good selections of Roman coins in stock from one to two thousand years old (warranted genuine) at ten cents each. For detailed prices of a very large number of American and foreign coins see 25 cent price list advertised on another page. For a concise history of all coins, see "The Coinage of the World, Ancient and Modern," fully illustrated, price \$2.50.

Besides the large assortment of coins always kept in stock by us, auction sales of fine collections take place nearly every month in New York, when fine cabinets are disposed of, frequently at very low prices; it is part of our business to attend all these sales, and execute orders to purchase from our friends, at a commission of ten per cent. We shall be pleased to send catalogues free of charge to intending purchasers who may require our services. A collection of coins, however small, ought to be in the possession of every intelligent person, as it does more to familiarize the student with ancient history, and make him feel a personal interest in the events of by-gone ages, than all the reading of a lifetime. Looking on a coin of Julius Caesar, we are carried back to the time when Caesar grasped imperial power, and died; these events may be fully recorded in Roman history, but Caesar himself may have used this same coin; or it may be that held by One greater than Caesar, when He asked, "Whose image and superscription is this?"

If Numismatics is the "record of the past," Philately, or stamp collecting, will be a history of the future. Postage stamps were first issued by Great Britain in 1840, when the great advantages of the new system caused it to be rapidly adopted by every nation, and almost as soon as there were varieties of stamps to collect, we find amateurs engaged in their preservation; originally a pastime for boys, it soon became a study for some of the most acute of the leading savants, the late Dr. John Edward Gray, F. R. S., etc., etc., of the British Museum, being one of the first to advocate its study. At first persons desirous of forming a collection were obliged to beg the stamps of their friends, but the opening of our stores in London and New York relieved collectors of this obligation, and from that time to the present the number of collectors has steadily increased. Some of the advantages of stamp collecting consist in the ease with which they can be preserved, their present low price offering a splendid opportunity to commence now; values are steadily advancing, as is shown by the prices realized at public auctions for rare specimens. The magnificent collection of stamps exhibited by us at the Centennial Exhibition, although incurring the expenditure of over a thousand dollars, has shown collectors what may be done in the way of forming a fine collection. The stamp albums published by us, and exhibited at the Centennial, were acknowledged to be without a rival, as shown by our diploma, but the fact of their having driven competition completely from the field, and our largely increasing exports, show emphatically that they are the only reliable albums published, the prices varying from 25 cents to 50 dollars, calculated to suit the wants of all. The splendid catalogue, price 25 cents, giving full particulars of every stamp, ever issued, together with its date of issue and present value, illustrated with the types of nearly every stamp, should be in the hands of every one. Our facilities for conducting the stamp business are unsurpassed by any firm or combination of firms in the world, as a visit to our metropolitan establishment will demonstrate, our stock being simply enormous, and our prices lower than the lowest, in fact it is impossible to sell *genuine stamps* at rates lower than those indicated in our lists. Catalogues of all auction sales of stamps will be forwarded to all desirous of purchasing.

News of the Quarter.

Prominent among the postage stamps issued during the last quarter of the old year must be placed the new values of GREAT BRITAIN: the stamps are large, the colors fine,

and the engraving excellent, of course. They are all values new to the country, and higher than have heretofore been employed. It is a noteworthy fact, that, while the postage is being continually reduced, stamps of higher value are continually being issued, showing that cheap rates induce larger and heavier letters. The new values are: 10 shillings, slate green; 1 pound, violet; 1 penny, brown newsband.

The designs being shown by our engraving do not need any special description.

NEW ZEALAND. This colony has also followed the fashion in regard to high values, and issued the following, both of the same design: 2 shillings, pink; 5 shillings, grey.

CHINA certainly deserved the first place in our notice, although crowded down by the world encircling empire. It is certainly a notable event for such a conservative power as China to follow the example of her neighbors in issuing postage stamps. It is curious also that China, the first nation to issue coins, should be the last to provide postage stamps for the use of her people. The set, of which an engraving will be found above, are all of the same design, and will, we are informed, consist of seven values, although but the three following have yet seen the light: 1 candareen, green; 3 candareens, red; 5 candareens, yellow.

FALKLAND ISLANDS stamps are the last represented in our review; they are all of the same design, and the work of the eminent English engravers, Messrs. De la Rue & Co., which is sufficient guarantee of their beautiful appearance, although we would much preferred to see some other design than the hackneyed profile of Queen Victoria, whose portrait already figures on nearly one thousand stamps. 1 penny, claret; 6 pence, green.

FRANCE.—The 25 centimes of the current type, black on red, was issued October the 25th; this only leaves the 20c. to be issued to complete the set as announced last year.

UNITED STATES OF COLOMBIA Antioquia.—We received last mail from this State, two new stamps of the values of 2½ and 5 centavos. The design of the first is condor in circle holding in its claws a scroll which appears to be inscribed with the national motto, and being a faithful exponent of the country, the *LIBERTAD*, is

very indistinct. This is surrounded by a circular band, inscribed E. S. DE ANTIOQUIA, above EE. UU. DE COLOMBIA, numeral of value at side in straight lines, above CORREOS, below value. It is badly printed in dirty blue ink. The 5 cent. is very similar in appearance to the 10 cent. U. S. of Colombia, having the same head on solid ground in centre, with E. S. DE ANTIOQUIA above, EE. UU. COLOMBIA below, numerals of value in angles, CORREOS in straight line above value, below 5 centavos, dull green.

BOLIVIAN.—The state of Bolivar has also issued a new 5 centavos stamp. This is well executed and the design good. This consists of the national arms in center, with EE. UU. DE COLOMBIA below, inclosed in circular frame inscribed CORREOS DEL EO SO DE BOLIVAR; value above and below in curved lines, and numerals of value in half circles in corners.

NORWAY.—This country, following the general rule, has added more values to its set, which has been enlarged as follows:

35 ore, sea green; 60 ore, dark blue.
1 krona, green; 1½ krona, blue.
2 krona, rose frame, brown centre.

The first two are of the current type, while the three high values bear the head of King Oscar II. as the principal device.

Of other news of philatelic interest there is nothing of importance to tell, but collectors are looking forward to the great sale of Mr. Withington's splendid collection, which will take place in January or early in February. This is to be followed by another auction sale, which, although of less importance than the first, still contains some valuable stamps and a large quantity of rare ones which will doubtless sell cheap. We had almost forgotten to call attention to the late reduction in price of the splendid set of Rulers of the World. This is a sheet of accurate photographs, mostly taken from life at great expense and vastly superior to anything ever before gotten up, and notwithstanding the great outlay in preparing the sheet, the price has been reduced to 50 cents. These photographs are the only portraits suitable for insertion in the International Album, and for the benefit of purchasers of this celebrated book the three sets of Photographs of Rulers, Arms and Flags of the World will be sold together for \$1.00, post free.

Of coins we only have two new types to describe. First, is the well-known Indian rupee of the annexed type, with EMPRESS in place of QUEEN. The date is 1877.

Our next is from the Netherlands and represents a new issue of bronze coins to replace the two so long current. The new comer has the national arms in centre in dotted circle, surrounded by the legend KONINGRIJK DER NEDERLANDEN, 1878. The reverse has a large numeral of value in centre with CEN below, the whole enclosed in a very neat wreath. The size is 20 mm; altogether it is one of the prettiest small coins we have seen.

The most important event in numismatic circles during the last few months has been the sale of the Jones collection of cents, in which some extraordinary fine cents brought very high prices. Priced catalogues of this sale should be in the hands of every collector; they can be had of our publishers at 50c. each.

The enormous collection of ancient Roman, Greek and Hebrew coins, the property of a New York merchant, will be sold at auction in February. This will undoubtedly bring together all the principal coin collectors in the country, besides many from Europe.

This splendid collection will occupy an entire week in its disposal, giving plenty of opportunity to collectors to pick up bargains, and we have no doubt but that many coins, 2,000 years old, will sell from 10 to 25 cents each, which could not now be obtained at double the money. Other sales of less importance are now being catalogued for sale.

AUCTION SALES

OF

COINS

AND

Foreign Postage Stamps.

Messrs. Scott & Company wish to call attention of amateurs to the numerous sales of collections of Coins and Stamps catalogued by them for public auction. The catalogues are prepared at a cost of from ten to fifty cents each, without counting postage, and have been sent free to collectors generally to the number of several thousand monthly. While we should be pleased to continue sending catalogues to parties interested, we find the tax on us is too much, so in future CATALOGUES WILL ONLY BE SENT ON SPECIAL APPLICATION TO INTENDING PURCHASERS AND TO ALL BUYERS THROUGH US AT PREVIOUS SALES.

We are now cataloguing, to be sold in February, a splendid collection of ancient Roman, Greek and Hebrew coins, the property of a New York merchant. This is the finest collection of ancient coins ever offered at public sale in America, and comprises some 3,000 lots. It includes all the fine coins exhibited during the last few years at the Metropolitan Museum of Art, and a valuable library of numismatic works. The date of this sale, which will occupy an entire week, will be announced shortly.

Messrs. Scott & Company will also offer early in January the splendid uncanceled collection of Foreign and American Postage Stamps, the property of C. S. Withington, Esq., for competition at public auction in lots to suit. Catalogue ready January 20th.

THE COINAGES OF THE WORLD, ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

CRITIQUES.

The New York Times of December 27th, says:

"What every student of Coinages—not the mere collector of old coins—wants to know."

The New York World of November 27th, says:

"Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference."

The New York Evening Post of November 29th, says:

"A work of great interest to numismatists and collectors of coins. * * * The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries."

The New York Daily Graphic of December 23d, says:

"Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference."

The American Journal of Numismatics of January 1st, says:

"This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared."

The Coin Collector's Journal of January 1st, says:

"This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Ægina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Grecia Magna to Rome, and so down through the Byzantine Empire to Medieval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house."

THE COIN COLLECTOR'S JOURNAL.

SPLENDIDLY ILLUSTRATED.

A 16-PAGE MONTHLY. \$1.00 PER YEAR, POST FREE.

In forwarding to our subscribers THE COIN COLLECTOR'S JOURNAL for January, 1878, at the commencement of the third volume, we would take the opportunity of thanking our patrons for past favors, and urge them to continued exertions to increase the circulation of the Journal. As it is the largest numismatic monthly published in the United States, and as it has now attained a more extensive circulation than any other paper devoted to the interests of coin collectors, we think it is for the interest and advantage of subscribers to do something to increase its influence.

We would remind our friends that by increasing the circulation of the Journal, the number of collectors will doubtless be much increased, and, as the number of coins is limited, the additional demand will greatly enhance the value of all collections.

The publishers have never expected to realize any profit from the subscription list; all that they hope for is to make the C. C. J. a self-sustaining means of communication for coin collectors, and therefore feel justified in looking to those benefited by it to do something to add to its usefulness in the future.

We give annexed a few reasons why every coin collector should become a subscriber:

No. 2. Reverse—Profile of Washington.

NOTE.—It is impossible to convey any idea of the exquisite beauty of the originals by the aid of wood engravings. They must be seen to be appreciated.

We would call the particular attention of all patriotic Americans to the following list of beautiful **CENTENNIAL MEDALS**, and advise all who have not already secured specimens to do so at once, as our stock is rapidly decreasing, and cannot be replaced, the dies, in most cases, being destroyed. These Medals are certain to increase in value every year, and offer a safe and profitable investment.

POSTAGE STAMP CATALOGUE.

Thirty-sixth (36) Edition for 1879.

It is scarcely necessary to describe or recommend a book to intelligent collectors of which THIRTY-SIX editions have already been sold, as some one of its numerous editions is in the hands of nearly every amateur, and they speak for themselves and demonstrate to the most critical observer that the **Standard Postage Stamp Catalogues** sold by Scott & Company are the *ne plus ultra* of perfection. That we intend it to retain the high position awarded to it by its friends, foes, rivals and imitators, the new edition for 1879, now ready, will demonstrate. It is brought up to the last day of the year, and contains all the new issues, among which may be named

China, Falkland Isles, Cashmere, New French, etc., etc.

It is fully illustrated and printed with new clear type, on good paper. The prices have been reduced to the lowest possible point at which genuine stamps can be sold.

Price, 25 Cents, Post Free.

Or with Supplement, containing over 700 additional illustrations different to the 500 in the Catalogue, **50 cents**, post free.

REVENUE STAMP CATALOGUE.

This well-known list of Fiscal Stamps, the first and best of its kind, has been lately improved by the addition of a new list of Match, Medicine and Cigar Stamps, and is indispensable to all collectors of Revenue Stamps.

Price, 25 Cents, Post Free.

THE UNITED STATES LOCALS AND THEIR HISTORY. BY C. H. COSTER.

The publishers take great pleasure in introducing this important work to the notice of philatelists and American antiquarians. To the philatelist it is a necessity, to the student of American history it is invaluable, giving as it does the early history of many enterprises which now embrace the entire country in their scope.

The paper and printing are of the first quality; in fact, it is probably one of the handsomest books ever issued in America.

THE COATS OF ARMS OF THE WORLD.

(RUSSIA.)
Uncolored fac simile showing size.

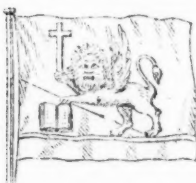

This magnificent chart contains accurate representations of the armorial bearings of the nations of the world, all of which are beautifully and correctly emblazoned in gold and silver, and their true colors.

As a sheet for framing, it is an acquisition to any drawing room, and is indispensable in the library or study.

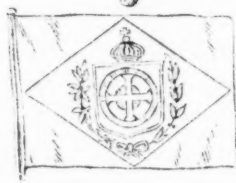

As a guide to determine the nationality of foreign coins or postage stamps, (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

Printed on fine heavy paper for framing, or on the same quality of thin paper for inserting in albums. Price, 50c.

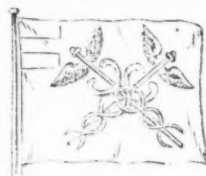

THE MERCHANT FLAGS OF THE WORLD.

AUSTRIAN-ITALY.

BRAZIL.

FINLAND.

Uncolored fac-similes, showing size and style.

These brilliant colored Flags faithfully represent the emblems of the different nations of the earth, and as such are a great acquisition to any Album, while the exceedingly low price (25 cents) at which they are published, places them within the reach of all.

This Chart containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate, and by its aid the nationality of any ship may be easily determined, as it gives the Flag of the NATION instead of the gorgeous piece of bunting which simply belongs to one family, and is seldom, if ever, seen out of their country.

These sheets possess three great advantages (to the Collector) over any other we are acquainted with, which consist in the facts that there is only one Flag to each country; more nations represented than have heretofore been given, and only Flags of those countries which issue postage stamps. These we consider of great importance to those who buy them to put in albums, as they can use them all instead of having to throw away half the purchase. The colors are very brilliant, and withal correct, and being printed on very thin paper, the book is not swelled to an inordinate thickness.

Beautifully and correctly printed in FIVE colors on fine heavy paper for framing, or thin paper for albums. Price only 25 cents.

In ordering please state which paper is required.

All good, of their kinds, and cheap at the prices affixed.

THE COMMON SENSE POSTAGE STAMP ALBUM.

—:O:—

It has received the Highest Prize wherever exhibited, and was awarded the only Diploma for Stamp Albums at the American Institute.

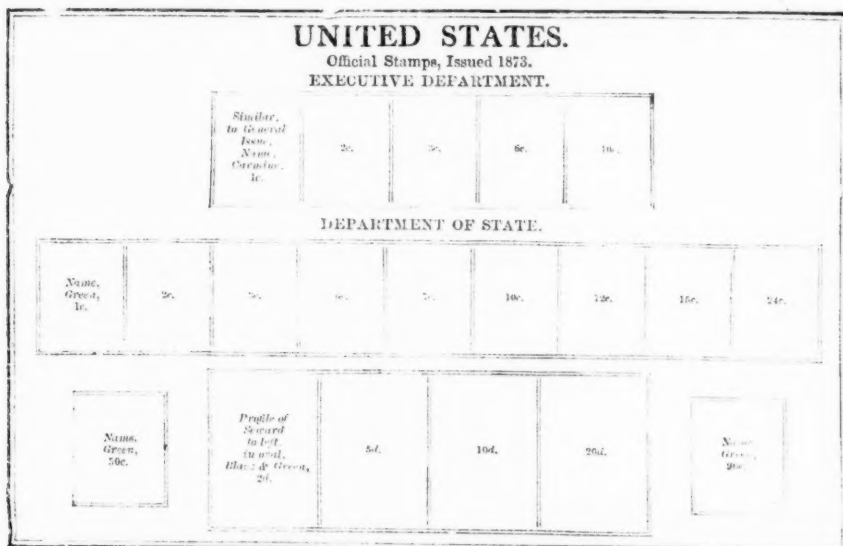

It has specially designed spaces for the reception of every Postage Stamp ever issued, rather larger than the Stamp itself, thus showing a neat border round each, adding much to the appearance of a set. Each space contains the description of the stamp it is designed for, thus making it nearly impossible to make mistakes in arranging the collection. It is brought up to the present time, having spaces provided for the Stamps of The Decan, Fiji Islands, Japan, &c., &c., also, for the new issues of Canada, Ceylon, Luzon, Norway, Prince Edward Island, United States Official, &c., &c.

It is bound in the strongest manner, by the most skilful workmen, with the best materials. The following styles and prices now ready:

EXTRACT FROM PREFACE.

"Special care has been taken to leave plenty of room for those governments that are still in existence, so as to accommodate future issues, and blank pages are left at appropriate intervals for the reception of Stamps from any countries that have not at present issued Postage Labels; but should anyone desire additional leaves, specially designed to correspond with the body of the book are prepared for all new issues as soon as they are received. These are supplied to the publishers at a nominal rate, and can easily be inserted in their proper order by gumming them to the blank pages with the glue for that purpose, thus making the Album PERFECTLY PERMANENT, and as good after ten years as one just issued."

Illustrated with a specially engraved map of the world showing the location of every stamp issuing country.

THE REVENUE STAMP ALBUM.

—:O:—

This album is specially designed to contain the Revenue Stamps of the world, great care having been bestowed in its preparation. It contains the only complete list of U. S. Revenue Stamps ever published, and is well calculated to contain in a convenient and elegant form these interesting mementoes of the greatest struggle the world has ever witnessed, and vividly illustrates the darkest pages of our national history. It is made uniform with the Common Sense Postage Stamp Album, and forms an interesting second volume to that work.

EXTRACT FROM PREFACE.

In the present state of knowledge concerning revenue stamps, it is simply impossible to make the book perfect, nor would it be advisable to do so, if the necessary data were at hand, as the supply of these labels is, at present, very limited, which would in that case, make it impossible to fill the Album. Perhaps the greatest charm in collecting revenue stamps consists in the uncertainty and romance connected with it; nearly every amateur having specimens in his album which are totally unknown to his brother collectors, and there being no definite value or degrees of value yet established; but, of course, this state of things is rapidly passing away, and ere many years, or even months have elapsed, collectors will awake to the knowledge that they have some priceless rarities among their revenue stamps, which, perhaps, have only cost them two or three cents.

Taking these facts into consideration, spaces have only been prepared for well-known and obtainable series of foreign revenue stamps; but by the plentiful distribution of blank pages throughout the book, ample room has been secured for all fiscal stamps that may be acquired by the owner. In regard to the emissions of the United States the case is very different, as nearly every American Philatelist is desirous of obtaining a complete set of the fiscal stamps of his own country. Therefore great care has been taken to provide space for every stamp that has ever been issued by our own country, with the exception of beer, spirit, and tobacco stamps, which it has been pronounced illegal to collect, but as large numbers do collect them, sufficient blank pages have been left for their accommodation, and taking into consideration their large size, they can be arranged with equal facility without the aid of lines.

ALBUM PACKETS.

These wonderfully cheap lots of Stamp Albums are put up for the benefit of small traders, so that every dealer, however small his capital, may participate in this profitable branch of the stamp trade. The lots are selected with special regard to the requirements of the trade, the quantities of each kind being in the proportion they have been found to sell by dealers; with stocks of stamps as quoted with the different packets. Our sixteen years experience of the stamp business, in conjunction with conducting the largest and most successful Stamp Album manufactory in the world, has convinced us that there is a larger business to be done in Albums than in Stamps; thousands of people who collect stamps have never bought a single one, but rely altogether upon exchange or the contributions of friends to complete their collection, but there is no way of getting an Album without purchasing it. Many prominent dealers inform us that they sell more Albums (in amount) than Stamps. The profits being equally large, and the trade altogether more desirable.

4 page descriptive circular of albums, &c., with purchaser's name only, \$2.50 for the first 1,000; \$2.00 extra for each additional 1,000. This is less than half the price they cost us to print.

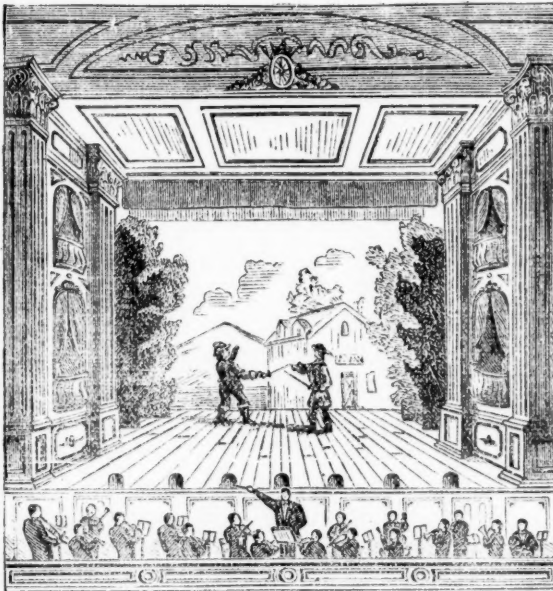

If there are any of our readers who have never seen a miniature theatre performed by an intelligent boy they have missed one of the prettiest sights imaginable, and if they have any boy friends in whose welfare they are interested, they cannot do better than make him a present of one of these instructive toys. They are made in three sizes, each perfect in itself, but designed for different ages. In the first designated miniature the scenes are the size of the engraving given above; are printed on cards, beautifully colored, and full instructions for performing accompanying each one. The price is 10 cents, or with characters, etc., already cut out, with wooden stage, and packed in box, 50 cents. They can be obtained in the principal cities, or will be sent by express on receipt of price. The next size, or that known as Seltz, is four times as large and the coloring much finer. These cost 50 cents, or with one of the patent folding wooden stages, two dollars and a half. "Last year the writer was invited to attend a performance of the play of Cinderella, which was to be given by the son of our pastor. On entering the room we found that the sliding doors dividing the parlors had been drawn together leaving just sufficient space for the proscenium of the stage to stand in the front room, a table cloth having been hung above and below, so that nothing could be seen on that side but the front of the stage; four rows of eight chairs were arranged in a semi-circle before it. These were occupied by the friends of the family, the smaller children being placed in the front seats, while the older ones remained at the back, where they could see over the others' heads. The gas being turned low in the room, the little oil foot-lights on the mimic stage burnt bright, and threw light on the curtain, which was raised at the sound of a little bell. The performance then commenced, our young friend behind the stage in the other room, and his sister, reading the speeches of the supposed performers, and pushing the characters on the stage with wires at the proper time. With what a burst of applause the entry of the Fairy Queen was received when she was lowered to the stage by a hair, and the young lady read the tale of the sufferings of poor Cinderella. Then the scene changed to the cave of the Kobolds, and the little card characters were seen in the performance of the work necessary for getting the fire ready to make the little glass slippers. This is finally accomplished while a chant is being sung back of stage; but we have not time to recount all the changes of scene, from the kitchen to the ballroom, and from there to the castle court-yard, where the gorgeous equipage of Cinderella is suddenly transformed to the big pumpkin, and the poor frightened mice, rats and lizards. We left as pleased with our evening's entertainment as if we had attended a concert conducted by grown people."

The large or "mammoth" size is the same as the Seltz except in dimension, the scenes being 22 inches high by 28 inches long, while the stage being so much larger, there is, of course, room for more complicated effects, such as real painted act drops and curtains that roll up from the bottom. The play for these can be had for a dollar and a half, or the large wooden stage, with two curtains and play complete, for ten dollars.

Without counting the endless pleasure to be derived from acting or witnessing the performance of Seltz's American Boys' Theatre, the fitting up, mounting and performing these Plays will be found to give more pleasure and profit for the money than the same amount expended in any other way. If the marvellous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of SELTZ'S AMERICAN BOYS' THEATRE are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.
